

Test Scenario ID:		TS-API-USER-DELETE-01		Version:		V1.1	
API Name:		Passenger ลบบัญชีตนเองสำเร็จ		Tested by:		Sujeephon	
Date of Test:		15/3/2026		Test Environment:		API Tool: Postman Server: http://localhost:3000	
Pre-requisite:		ต้องมี passengerToken					
Method	Endpoint	Header	Request Body	Expected Status	Expected Response	Test Result (Pass/Fail)	Remark
DELETE	/api/users/me	Authorization : Bearer {passengerToken}		200 OK	{ "success": true, "message": Your account will be permanently in 90 days.", "data": {"userId" : " " } }	✓	ค่า deletedAt และ isActive=false สำเร็จ

Test Scenario ID:		TS-API-USER-DELETE-02		Version:		V1.1	
API Name:		Passenger ลบบัญชีไม่ได้เมื่อมี Booking Active		Tested by:		Sujeephon	
Date of Test:		15/3/2026		Test Environment:		API Tool: Postman Server: http://localhost:3000	
Pre-requisite:		ต้องมี passengerToken					
Method	Endpoint	Header	Request Body	Expected Status	Expected Response	Test Result (Pass/Fail)	Remark
DELETE	/api/users/me	Authorization : Bearer {passengerToken}		400 Bad Request	{ "success": false, "message": "You cannot delete account while having active bookings.", "data": null }	✓	

Test Scenario ID:		TS-API-USER-DELETE-03		Version:		V1.1	
API Name:		Passenger ลบบัญชีไม่ได้เมื่อมี Incident ที่ยังไม่ปิด		Tested by:		Sujeephon	
Date of Test:		15/3/2026		Test Environment:		API Tool: Postman Server: http://localhost:3000	
Pre-requisite:		ต้องมี passengerToken					
Method	Endpoint	Header	Request Body	Expected Status	Expected Response	Test Result (Pass/Fail)	Remark
DELETE	/api/users/me	Authorization : Bearer {passengerToken}		400 Bad Request	{ "success": false, "message": "You cannot delete account while having open incident cases.", "data": null }	✓	

Test Scenario ID:		TS-API-USER-DELETE-04		Version:	V1.1		
API Name:		Driver ลบบัญชีตนเองสำเร็จ		Tested by:	Sujeephon		
Date of Test:		15/3/2026		Test Environment:	API Tool: Postman Server: http://localhost:3000		
Pre-requisite:		ต้องมี driverToken					
Method	Endpoint	Header	Request Body	Expected Status	Expected Response	Test Result (Pass/Fail)	Remark
DELETE	/api/users/me	Authorization : Bearer {driverToken}		200 OK	<pre>} "success": true, "message": "Your account will be permanently deleted in 90 days.", "data": { "userId": " " } }</pre>	✓	

Test Scenario ID:			TS-API-USER-DELETE-05		Version:		V1.1	
API Name:			Driver ลบบัญชีไม่ได้ เมื่อมี Route Active		Tested by:		Sujeephon	
Date of Test:			15/3/2026		Test Environment:		API Tool: Postman Server: http://localhost:3000	
Pre-requisite:			ต้องมี driverToken					
Method	Endpoint	Header	Request Body	Expected Status	Expected Response	Test Result (Pass/Fail)	Remark	
DELETE	/api/users/me	Authorization: Bearer {driverToken}		400 Bad Request	{ "success": false, "message": "You cannot delete account while having active routes.", "data": null }	✓		

Test Scenario ID:		TS-API-USER-DELETE-06		Version:	V1.1		
API Name:		Driver ลบบัญชีไม่ได้ เมื่อมี Booking บน Route		Tested by:	Sujeephon		
Date of Test:		15/3/2026		Test Environment:	API Tool: Postman Server: http://localhost:3000		
Pre-requisite:		ต้องมี driverToken					
Method	Endpoint	Header	Request Body	Expected Status	Expected Response	Test Result (Pass/Fail)	Remark
DELETE	/api/users/me	Authorization: Bearer {driverToken}		400 Bad Request	{ "success": false, "message": "You cannot delete account while having active bookings on their routes.", "data": null }	✓	

Test Scenario ID:			TS-API-USER-DELETE-07		Version:		V1.1	
API Name:			Driver ลบบัญชีไม่ได้ เมื่อมี Incident เปิดอยู่		Tested by:		Sujeephon	
Date of Test:			15/3/2026		Test Environment:		API Tool: Postman Server: http://localhost:3000	
Pre-requisite:			ต้องมี driverToken					
Method	Endpoint	Header	Request Body	Expected Status	Expected Response	Test Result (Pass/Fail)	Remark	
DELETE	/api/users/me	Authorization: Bearer {driverToken}		400 Bad Request	{ "success": false, "message": "You cannot delete account while having active bookings on their routes.", "data": null }	✓
